CSU Society of Information Technology (SITES) - member

PROJECT PORTFOLIO

Project Name: SMART Records Management System logo
**Project Description:** An individual task that will create a new design for a logo in the SMART office.
Project Screenshot:

**Project Name:** A Database for Items Sold in the Carabao Center

Project Description: The Carabao Center at Caraga State University is dedicated to researching, developing, and promoting technologies related to carabao. Currently, the process for selling carabaos involves submitting a request letter with an attached quotation for approval by the University President. Its primary objective is to enhance carabao-based farming systems' productivity, profitability, and sustainability. This project aims to develop a centralized database for the Carabao Center. This database will manage information regarding items sold and the transaction process.
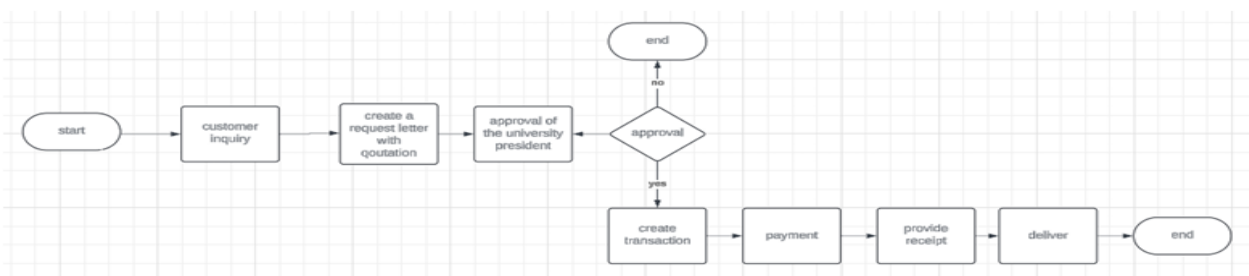

**Project Screenshot**:

II. PROCESSES

A. Current Flowchart

B. Proposed Flowchart

III. DATABASE DESIGN

IV. RETRIEVAL OF RECORDS
Example:

A. Retrieve the ear tag number and name with the highest-priced item.
Answer:

```
SELECT i.eartag_no, i.name, price
FROM item i
WHERE i.price IN (SELECT MAX(price)FROM item);
```

	eartag_no [PK] character varying (40)	name character varying (40)	price numeric (7,2)
1	2cmc20016	Carabull	20000.00

B. Display the name and customer ID of those who have not made any transaction.
Answer:

```
SELECT c.c_name, c.cid
FROM customer c
FULL JOIN transaction t ON t.cid=c.cid
WHERE t.cid IS NULL;
```

	c_name character varying (50)	cid [PK] character varying (10)

CERTIFICATION'S SCREENSHOT:

COURSE CERTIFICATE

This is to certify that

Karen Celebrado

has successfully completed the course by demonstrating theoretical and practical understanding of

Introduction to SQL

Yeva Hyusyan
Chief Executive Officer
